Why Properties Are Acting Now

- **Increased property value,** marketability & tenant satisfaction
- **EV adoption in California** is accelerating — charge-ready is now expected
- **Approvals are first come,** first served — funds may run out before June 30

We've helped clients secure over \$100M in EV hardware & installation savings through incentive programs.

We Handle Everything — Start to Finish

Site evaluation · Application process · Permit & design · IBEW-certified installation · Inspection & commissioning

Don't be the last property without EV charging stations.

Thousands of LA properties have already received funds. Yours could be next.
